Non-Resident Licenses and Renewals

Each Non-Resident License transaction incurs a fee of $8. Each Non-Resident Renewal transaction incurs a fee of $4. Each state selected from the checklist is considered a transaction, thus selecting 5 states generates 5 distinct transactions. Fees are subject to change.

Transaction fees accumulate and are billed monthly by email. If you also process Appointments and Terminations, these will be itemized along with your NRL/NRR transactions.

State fees are paid in advance by Systeme. A processing fee of 3.25% of the state fee is added. State fees are billed by email at the time the transaction completes.

Processing an NRL/NRR is easy, too! Simply enter the Social Security Number, Resident License number and State. Check off the states for the new license and Cratchit-NET determines what the licensee is qualified for in each state you selected. You can't select an invalid license type!

When you have completed the information about the licensee, Cratchit-NET formats your request and gives you a transaction number. This number identifies your transaction until it completes. Each time the status of your transaction changes, you will receive an email notification. This notice contains a link that takes you directly to the status review window, even if you are not logged into Cratchit-NET!

Use Cratchit-NET to request your agents' and agencies' licenses and appointments, then use Cratchit-WEB to keep track of when they are due for renewal... as well as many many other exciting features!
